Subject: Thank You

Gentlemen,

Just a quick note on our TWL rebuild. Mickey was sent in to do our rebuild. It went much smoother than any of us anticipated. He was well organized, and could explain what he needed us to do very well. We accomplished the rebuild in about 12 hours. We couldn't be happier with the results. Mickey is very proficient and knows what he is doing. Thanks for sending one of the best guys in your team. Let me know if there is anything I can do for you guys.
