Subject: Neri - Loader Status

Jack

I am pleased to report that the new oven loader is corrected.  
Alex K and Jeff R did A great job when they came to do the service and upgrades.  
The work Alex and Jeff performed appears to have corrected the issues with the periodic board jams.

I also want to confirm with you that the new WP tunnel oven is baking great! We are able to decrease the bake time on the hearth Kaiser rolls from 16 mins. to 15 mins and are getting a great product!

Thanks VERY Much
