Mr. Mark Rosenberg  
Gemini Bakery Equipment Company  
9990 Gantry Road  
Philadelphia, PA 19115

Dear Mr. Rosenberg:

Hi Mark,

I want to thank you all for the work you did in making the installation of our new dividers a success this week. When we first turned them on I was really worried because the first 5 batches made lousy rolls and we didn't seem to be able to make any improvements. I had to go to a lunch meeting and when I got back we were making beautiful rolls at record rates. I was amazed! Keith went the extra mile by staying at the plant until everything was working well and then staying through cleanup to make sure all of our operators knew what they were doing to both run the dividers and to clean them.

Thanks for all the advanced planning and work to make this week so successful. I really appreciate how well the entire Gemini team works with everyone at Rhodes. Without this cooperation this week would not have been nearly as successful. These roll dividers are incredibly critical to the success of Rhodes. I am so grateful to everyone at Gemini for helping us make this installation successful.

Thank you, thank you, thank you.

-Erik
